All cats should be kept inside their owner's home	Cats should be able to roam – it's a natural behaviour	Unchipped cats should be euthanised
Cats should be desexed unless owned by a reputable breeder	Cats should be restricted to their owner's property	Roaming and feral cats endanger native animals
All cats should be registered and chipped	Cats help keep down pest populations	Supervised outdoor cat colonies are good places for feral cats

Remember: There are no right or wrong answers – just your personal views.

See the activity [Should cats be allowed to roam freely?](#) for additional support in using this interactive.
